1. GDSC Description

Google Developer Student Club is a university-based community group for students who are interested in technology, especially technology from Google. Google Developer Student is a place to grow as a developer, starting from a beginner developer to an advanced developer. Google Developer Student Club is not always about "programming" but also about connecting, learning together and growing together. Google Developer Student Club as a community that becomes a "connection" forum for students who are interested in technology from various majors and have different backgrounds. GDSC is a place for learning together with people who have the same interest in the field, which certainly makes the learning process more interesting.

2. Type of activity

- GDSC Summit Global

One of the activities of the Global GDSC Summit is the selection of Leads from each GDSC. GDSC Leads will later receive mentorship opportunities from Google, join the Global Lead community, and much more.

recruit your cotton members. There will be some tips about it that we will share with you in the next few days. But we'll have that in my right now. And yeah, with that. This honest you should make sure that you are able to access. Right now I'm actually access to copy platform just now. You can go to DSC Codeblock community.def. Mostly you should have already have access to

Pesan dalam panggilan

Anda 20.31
#ASK are we gonna have summary of these all questions?

Jason Jeremy Wijadi 20.35
#ASK: Should we mention the club as DSC or GDSC?

Agung Nugraha 20.36
#ASK: My academic advisor asked if there will be any internship/partnership from Google for the students/members.

Vincentius Christopher Calvin 20.36
#ASK: Aside of the core members, should we have official members signing up for DSC or can the events be available publicly?

Munawir Fikri 20.37
#ASK how about non-it student that request to use for make an event for non-it theme, for the example, business or career development?

Latest trends

- Startups / venture-backed enterprises have an increasingly large contribution to the economy
- AI and Machine Learning are disrupting all industries
- More people are connected and using online services than before

Questions: what will you create?

- To address local issues (language, logistical, etc.)
- To inspire others, to get them to also create
- To make life more enriching for yourself

Google Developer Student Clubs

Manikantan Krishnamurthy
saw the some of the stories of how a student in Indonesia wrote a flood prevention app. For their communities to solve for the local government. You could be that next person. Second. As a leader. How are you going to inspire others to get them to also create products and solutions around? Lastly, This is going to help your own life better. I think we all need a personal motivation and

- GDSC Indonesia Summit

  GDSC Indonesia Summit is an event organized by Google and the participants come from leads from various campuses. The purpose of this activity is to learn more about GDSC, its goals, and duties as a lead, provide insights about the community, open source, web, and careers at Google, brainstorm ideas about many things, especially about what to do and plan activities while working as GDSC Lead.

- Microblog

  The microblog here is short content about technology in general, such as the web, machine learning, IoT, and mobile which is posted on GDSC UNHAS Instagram every week in turn.

- Workshop

  The workshop is planned to be held once a month with different themes related to web, machine learning, IoT, and mobile with speakers who are experts in their respective fields.

- Challenge

  Challenges are planned to be held once a month. The theme of the challenge will be planned to be in accordance with the theme of the workshop being held and will be announced on the day the workshop is held.

- Social Project

  The Social Project will be carried out by making software that is a solution to the problems of the surrounding community. GDSC UNHAS also plans to cooperate with other partners related to this social project. Documentation of this social project will be posted on the GDSC UNHAS Youtube account.

- Hackathon

  The hackathon organized by GDSC UNHAS is planned to collaborate with GDSC from other universities in Makassar. Hackhaton will be the main event and will be followed by workshops and talk shows.
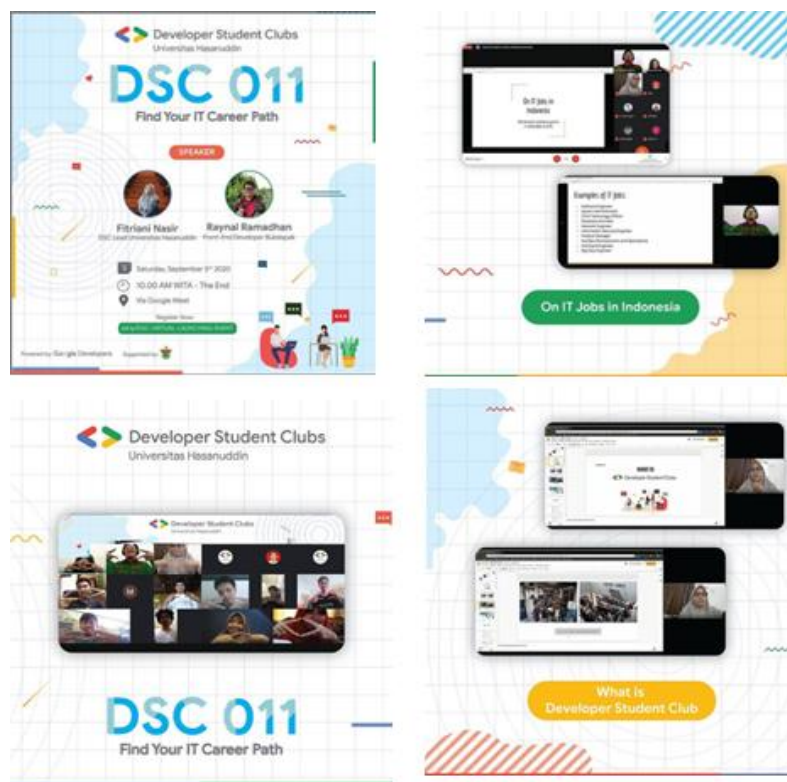

- 3 Min Content

  3 Min This content will be uploaded on GDSC UNHAS Youtube. 3 Min Content will be uploaded 2 times a week related to web, machine learning, IoT, and mobile.

- DSC 011 - Find Your IT Career Path

  Speakers:

  - Raynal Ramadhan (Front-End Developer Bukalapak)

  - Fitriani Nasir (DSC Lead Universitas Hasanuddin)

  DSC (Developer Student Clubs) is back at Hasanuddin University. And now, we will get to know DSC more closely and discuss the technology from Google. This event is perfect for UNHAS students because this event presents cool speakers who can help you see more clearly about the career path that is wide open for a developer or IT practitioner!

DSC 011 - Find Your IT Career Path
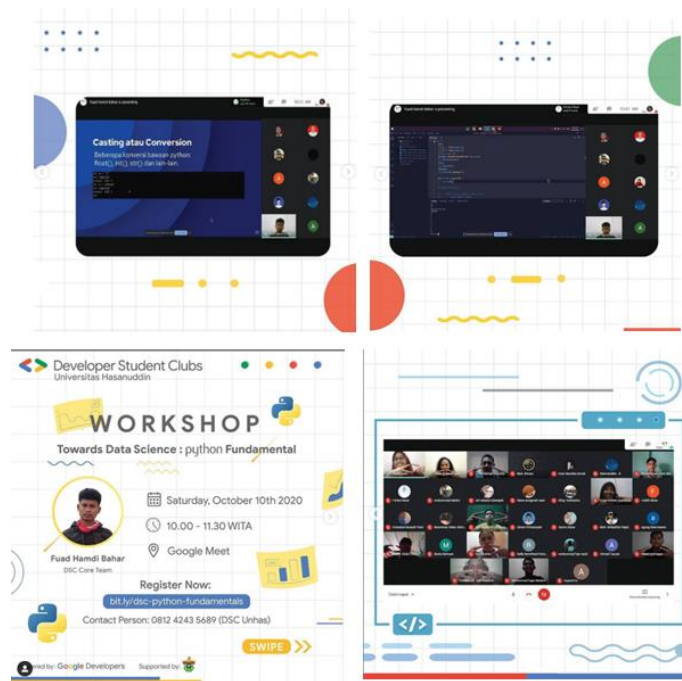

- Flutter: Come to The Dart Side

  You want to create a mobile application that can run on multiple platforms with just one source code? If so, Flutter is the perfect choice for you. Before stepping into Flutter, we will get acquainted with the programming language used in Flutter application development, namely Dart. Dart is a programming language developed by Google for general purposes (General-purpose programming language).

Flutter: Come to The Dart
